  - JTBD:
    - Close a project
    - Provide feedback to collaborators
  - Objects:
    - Collaborator’s names
    - Closing survey for each collaborator
    - Text field for additional comments
    - Send feedback button
    - [from Lauren: Should there be an option here to upload or link to something as the asset created?]
    - [from Lauren: Should there be an option to choose if this can be publicly showcased, or if it is a private project? For example, if on the homepage you wanted to show samples of successful collaborations with their asset outcome, this could be really compelling]
